PhD Thesis Defense

XXX cycle

Friday, February 23, 2018

9:00 AM

Room U0.3 - [MO 51] - Via Campi 103 - Modena

9.00-9.40 Dr. Claudio Giacinto Atene (tutor Dr. Tommaso Zanocco Marani), “Development of mouse models to recapitulate human Pemphigus and validate new therapies”.

9.40-10.20 Dr. Giulia Golinelli (tutor Prof. Massimo Dominici), “Targeting GD2-Positive Tumors by Chimeric Antigen Receptor Empowered Mesenchymal Progenitors”.

10.20-11.00 Dr. Ilenia Mastrolia (tutor Prof. Prof. Massimo Dominici), “HOXB7 in Marrow Mesenchymal Progenitors Acts to Improve Performance by Autocrine and Paracrine Mechanisms”.

11.00-11.20 Coffee break

11.20-12.00 Dr. Marika Quadri (tutor Prof. Carlo Pincelli), “Bio-molecular profile of melanoma subtypes selected by reflectance confocal microscopy”.

12.00-12.40 Dr. Sebastiano Rontauoli (tutor Prof. Rossella Manfredini), “Deciphering the role of miR-494-3p overexpression in the pathogenesis of Primary Myelofibrosis”.

12.40-13.20 Dr. Chiara Rossi (tutor Prof. Rossella Manfredini), “The role of the axis TGF- β 1/miR-382-5p/SOD2 in the induction of oxidative stress in Primary Myelofibrosis”.

13.20 -14.00 Dr. Virginia Sidonia Sceberras (tutor Prof. Graziella Pellegrini), “Translational medicine approach to failed hypospadias treatment”.

15.00 Proclamation

Thesis committee: *Prof. Roberto Massimo Lemoli, Università di Genova*
 Prof. Ruggero Pardi, Università San Raffaele di Milano
 Prof. Alessandro Fanzani, Università di Brescia
